COMPANY PROFILE

PT Waygo Sinergi Nusantara

STRATEGIC SOURCING & PROCUREMENT SUPPORT PARTNER

Connecting international buyers with qualified, verified suppliers across Indonesia — starting with essential oils.

BREBES, CENTRAL JAVA, INDONESIA

COMPANY OVERVIEW

About Us

PT Waygo Sinergi Nusantara is a strategic sourcing and procurement support partner based in Central Java, Indonesia — the heartland of the nation's essential oil production. We help international buyers identify, evaluate, and connect with qualified, verified suppliers across Indonesia, reducing the time, effort, and risk involved in sourcing from a market they may not have direct access to.

Our engagement model is flexible: we support clients either as a research and business-matching partner, or as a direct trading partner when a client prefers to purchase through us. In both cases, every supplier we work with is verified through technical documentation and laboratory testing before any commercial discussion begins.

COMPANY DIRECTION

Vision

To become a trusted reference point for international companies evaluating Indonesia as a sourcing origin — recognized for professionalism, responsiveness, and diligence.

Mission

— Ensure every supplier and product we work with has undergone technical document verification and laboratory testing before reaching the buyer.

— Build long-term partnerships with upstream distillers based on consistent quality and clearly verified production capacity.

— Act as an efficient, professional liaison between global industrial demand and Indonesia's domestic production capacity.

— Maintain a disciplined, evidence-based process at every stage — from sourcing to final delivery.

HOW WE WORK

Our Engagement Model

SOURCING & BUSINESS MATCHING

We conduct structured research, supplier identification, and screening on your behalf. You engage directly with the verified supplier; we facilitate the introduction and coordination.

DIRECT TRADING PARTNER

For clients who prefer a single point of purchase, we can act as the direct commercial counterpart — buying from verified upstream suppliers and selling to you under agreed terms.

SPECIALIZATION

Focus Commodities

We maintain a strict focus on the essential oils sector, prioritizing quality oversight and supply chain integrity over broad, unmanaged portfolios.

- **Clove Bud Oil — Current Primary Focus**
- Patchouli Oil
- Citronella Oil
- Other premium Indonesian botanical extracts

OUR ADVANTAGE

Why PT Waygo Sinergi Nusantara

STRATEGIC LOCATION

Based in Central Java, one of Indonesia's largest centers for clove and essential oil production, giving direct access to established distillation networks.

QUALITY VERIFICATION BEFORE NEGOTIATION

We do not offer any product without an upfront Certificate of Analysis (COA) verified by our team.

DISCIPLINED WORKFLOW

Physical samples are shipped only after technical specifications are reviewed and approved by prospective buyers.

TBC = To Be Confirmed, pending further verification from our supplier partner.

QUALITY STANDARD

Verification Commitment

Every product we offer has passed our internal verification of technical documentation and laboratory results before reaching prospective buyers. We do not dispatch physical samples until technical specifications are mutually reviewed and approved — ensuring efficiency and trust at every stage of engagement.
